

Data Force Software

Dillon Data Force Software enables a PC/laptop to communicate with Dillon digital force instruments via the instruments' standard RS-232 interface (300 to 921,600 baud). Data can be directly plotted/accumulated as force vs. time or force as a function of calculated distance at 80 Hz data acquisition rate. Convenient setup and help files. RS-232 cable required (*see below*). IBM PC compatible (*486 or better*) running Microsoft Windows 3.1, 95, 98, 2000, NT, XP or Windows 7 and available COM port or USB port (*use RS-232 to USB converter*). Compatible with FI-521, EDX, Communicator and GL.

Part Number	Description	List Price
AWT05-508771	Data Force real-time graphing software - download	\$375
