

Dillon EDxtreme Dynamometer and Communicator Remote Display Unit

The EDxtreme dynamometer is an extremely configurable force measurement instrument. It is available with optional radio. A radio-ready EDxtreme dynamometer can be remotely viewed and controlled by a Dillon Communicator. Serial cable connects easily to recessed connector on rear of instrument. The EDxtreme may be configured with or without shackles (see "Build your own....." on back page). Features are listed within the sales brochure and specification sheets outline everything included with the instrument. (All of the EDx models include backlight)

The EDxtreme may be ordered by either of two methods:

1. The most popular configurations are available in a single part number. See option 1 below.
2. Any combination can be produced using option 2; "Build-Your-Own EDxtreme" table on back page.

Option 1 - Pick a popular configuration by part number

If you do not find the exact combination you are looking for, go to Option 2 - Build-Your-Own

				EDxtreme with two shackles & backlight		EDxtreme with two shackles & radio- ready** & backlight	
Model	lbf	kgf	N	P/N	List Price	P/N	List Price

**Requires radio-equipped Communicator to benefit from this option.....See Below.

The Communicator

The Communicator can remotely view and control one or several EDxtreme instruments simultaneously. It connects by wire to the connector on the back of the EDxtreme. Information is easily sent to computer from the Communicator.

Part Number	Model	List Price
36170-0016	Communicator with radio and backlight	\$1,215

Option 2 - Build your own Edxtreme Dynamometer

If desired configuration is not available as a single part number, order any other combination using table below.

To order: simply combine the base instrument capacity with the options separated by dashes. For example, a 25,000 lbf (10,000 kgf) EDx with shackles with a backlight and no radio is EDx-10T-2S with a list price of \$2,975 (\$2,575 + 2 x \$150). (All of the EDx models include backlight)

Model	EDX Base Instrument	Option S -	Option P-	Option R -
		Shackle* and spacers	Spacer kit	Radio **
EDx-1T	\$1,610	\$60 ea.	N/A	\$740
EDx-2T	\$1,825	\$60 ea.	N/A	\$740
EDx-5T	\$2,115	\$95 ea.	N/A	\$740
EDx-10T	\$2,625	\$155 ea.	N/A	\$740
EDx-20T	\$2,885	\$415 ea.	\$125	\$740
EDx-50T	\$4,235	\$1350 ea.	\$200	\$740
EDx-75T	\$9,490	\$1715 ea.	\$200	\$740
EDx-100T	\$12,650	\$2330 ea.	\$365	\$740
EDx-150T	\$16,705	\$4820 ea.	\$485	\$740
EDx-250T	\$22,930	\$9150 ea.	\$615	\$740

* Dillon calibrates with shackles installed and cannot guarantee accuracy with other installations and/or hardware. The shaded capacities reflect instruments with bearings installed (in the dynamometer body where shackle pin acts as inner race) and if alternate hardware is used, the pin should be machined to identical specifications.

Option S includes centering spacers where required.

Option P includes spacers and attaching hardware for both upper and lower shackles.

Requires radio-equipped Communicator to benefit from this option.....See Below.**
