

## Quick-Check "Red" Tension Meter

The Quick-Check is quicker and easier to use than any measurement alternative in use today. It shows wire tension measurement directly on its display, without separate lookup tables. Its biggest feature is its speed, clamping onto cable for measurement in under three seconds! The Quick-Check can accommodate wire rope diameters up to 1 inch. The Quick-Check Red includes: tension meter, LCD display with backlight, data logging, data export via RS-232 port, cable gauge, one set of sheaves, a single wire calibration, AA-type batteries, wrench, user manual, carry case and calibration certificate.
